

XtraLick® Red

Mineral Lick

XtraLick® Red is specifically designed for all cattle - trace elements plus copper for growth and fertility. Especially suitable for stock kept on intensively grazed or reseeded and heavily fertilized pastures. They can help to counteract trace elements deficiencies in all cattle, horses, deer and goats. The copper content means that this lick must not be fed to sheep.

1. Composition

▪ Magnesium (Mn)	5 000	mg/kg
▪ Iron (Fe)	1 500	mg/kg
▪ Cobalt (Co)	50	mg/kg
