

XtraLick® SC Cattle

Mineral Lick

XtraLick® SC Cattle was developed in response to the needs of the livestock farmer. Extra high levels of selenium and cobalt help combat the country's widespread deficiency in these essential trace elements. Selenium is required for healthy muscles. **XtraLick® SC Cattle** also contain additional copper.

1. Composition

▪ Calcium (Ca)	1.0	%
▪ Phosphorus (P)	1.0	%
▪ Magnesium (Mg)	5 000	(mg/kg)
