

XtraLick® SC Sheep

Mineral Lick

XtraLick® SC Sheep was developed in response to the needs of the livestock farmer. Extra high levels of selenium and cobalt help combat the country's widespread deficiency in these essential trace elements. Selenium is required for healthy muscles. A deficiency in cobalt can lead to pine in lambs.

1. Composition

▪ Calcium (Ca)	1.0	%
▪ Phosphorus (P)	1.0	%
▪ Magnesium (Mg)	5 000	(mg/kg)
▪ Cobalt (Co)	150	(mg/kg)
▪ Iodine (I)	250	(mg/kg)
▪ Manganese (Mn)	500	(mg/kg)
▪ Zinc (Zn)	1 000	(mg/kg)
▪ Selenium (Se)	40	(mg/kg)
▪ Selenium3 (Se)	2	(mg/kg)
▪ Sodium (Na)	38	%

2. Use

XtraLick® SC Sheep can be supplied to the following livestock:

- Sheep

2. Packaging / Shipping

XtraLick® SC Sheep is shipped per 20' FCL on pallets.

Packaging details:

2 x 10 kg licks per carton
60 cartons per pallet
20 pallets per 20' FCL
Total licks per 20' FCL: 2 400
Total net weight: 24 000 kg
